

EFD Induction is looking for an experienced **LEAN / PROCESS ENGINEER**

EFD Induction has been developing induction heating solutions for more than 65 years. Today, we are one of the largest industrial induction equipment makers, with sales and service companies, manufacturing plants and R&D centers around the world.

The EFD Induction Group has 1000 employees, of which 150 work in Norway. The corporate language is English.

Responsibility and tasks:

- Manage a portfolio of improvement projects
- Actively conduct analysis and implementation of changes throughout the value chain at EFD Induction Norway
- Play a key role in ensuring projects meet quality, delivery and budget goals
- Use, improve and update TQM system
- Cooperate closely with R&D, project, engineering, sales, purchasing, production and test
- Participate in improvements globally when necessary

Requirements:

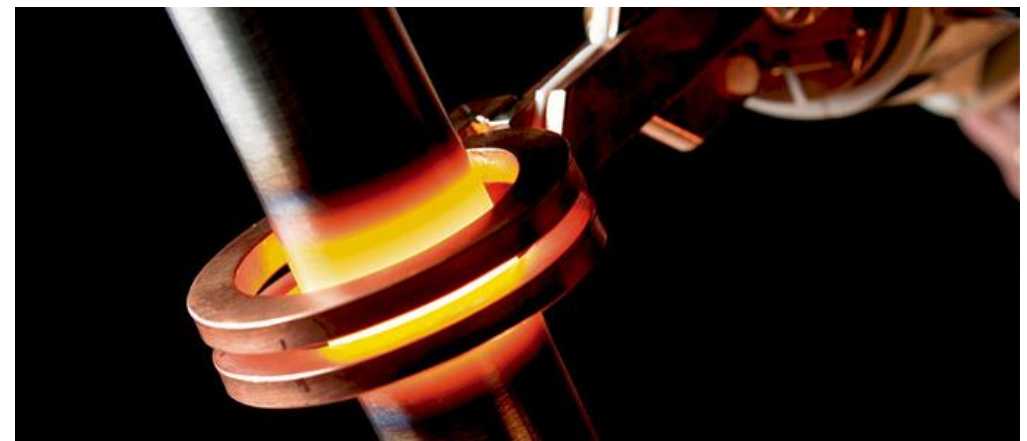

- Engineering degree in relevant technical field.
- Proven and documented Lean or six sigma experience and training
- Excellent communication and listening skills
- Interest and enthusiasm for the Lean craft
- Fluent spoken and written both Norwegian and English

EFD Induction offers:

- A dynamic and international environment with worldwide customer base
- State-of-the-art products and technology
- Inspiring customers and projects
- Competitive terms and benefits
- Excellent development perspectives
- Our company values: Respectful, Reliable, Cooperative and Passionate

For further information, contact:
Merethe Pepevnik, Operations Manager,
phone +47 948 26 879.

Send your application with cover letter, references, CV and copies of qualifications and supporting documentation to: hr-norway@efd-induction.com, within January 31st 2018.
EFD Induction is an equal opportunities employer.
