

Do you want to be a part in shaping the future of EFD Induction?

as Software-PLC Designer / Automation Engineer

EFD Induction has been developing induction-heating solutions for more than 65 years. Today, we are one of the largest industrial induction equipment makers, with sales and service companies, manufacturing plants and R&D centers around the world. More than 1000 employees worldwide are contributing to our success.

For our **innovation team Europe**, located in Freiburg, we are looking for a Software-PLC Designer / Automation Engineer. As member of this team, you have talents as risk taker, customer empathizer, idea integrator, influencer, results seeker.
